BIRDS CLUB INTERNATIONAL

Jayaraj Foundation

Birds Club International is a project initiated by the well-known film director Mr. Jayaraj under the umbrella of Jayaraj Foundation . The club which came into being in 2010 was piloted in a few schools and colleges in Kerala. It is now spreading its wings to a global scale.

Birds Club International, Narayaneeyam, Muttambalam P O, Kottayam, Kerala, India. 686004

The green initiative aims to create rain groves (miniature forests) in all schools and colleges, connecting students through bird watching and thereby reviving the nature and ecosystem we are losing . With the great ambition of building over one lakh of these rain groves, we can make some progress in the climate change issue which is severely affecting both human and other fellow species .

The program requests schools and colleges to provide a fenced space (minimum 1 cent) for planting trees and putting up a board in the name of Birds Club International. (size : 42 cm x 59.4 cm) of Birds Club Logo

They are also requested to :

- ✿ Nominate a staff co-ordinator to monitor the activities of Birds Club.
- ✿ Make a list of student members and select two student co-ordinators to lead the members.
- ✿ One unit of Birds Club International needs minimum 25 members
- ✿ Motivate the students to take care of the rain groves by themselves.
- ✿ Monitor and document the progress of the rain groves.
- ✿ Meet on a particular day in a month (preferably 3rd Saturday) to discuss relevant environmental issues (topics will be intimated by the Birds Club International in advance).
- ✿ Make a report of the discussion and share the same with Birds Club International.
- ✿ Conduct competitions or workshops related to nature and environment conservation at school / college levels.
- ✿ Arrange nature camps, bird-watching, trekking etc.
